Who We Are

The Green Party of Santa Fe is part of a global movement which includes organized parties in over ninety countries and forty-five U.S. states.

GLOBAL GREEN PRINCIPLES

**Ecological
Wisdom**
Social Justice
**Participatory
Democracy**

Non-Violence
Sustainability
**Respect for
Diversity**

The Green Party promotes:

- Locally based, decentralized economies
- Respectful, nurturing, cooperative relationships
- Personally and globally responsible lifestyles

What We've Done

The Green Party of Santa Fe is active in the community year round. In the last 10 years, we have elected 2 Green city councilors and a municipal judge. We have taken leadership on many local issues. Victories include:

- Restrictions of foothill development
- Provisions for home based businesses
- Hotline for tenants and landlords
- An effective non-polluting bus system
- A living wage
- Repeal of state tax on food and medicine
- Residential gray water use
- Rehabilitative sentencing of DWI and domestic violence offenders

What We're Working On

Some things we continue to work for are:

- Universal, single payer health care
- Abolishing the death penalty
- Electoral reform including:
 - independently verifiable voting
 - instant run-off voting
 - proportional representation
 - publicly funded campaigns
- Water and energy conservation
- Renewable sources of energy
